PROFESSIONAL SUMMARY

Full-Stack Developer with 3+ years of remote experience building web applications with React, Next.js, TypeScript, and Node.js — from billing and POS platforms to Progressive Web Apps. Fluent in English and Arabic; experienced collaborating async with international teams.

CORE SKILLS

- **Front-End:** JavaScript (ES6+), TypeScript, React.js, Next.js, HTML5/CSS3, Tailwind CSS, MUI (Material UI), Bootstrap, Responsive UI, Front-end architecture, Cross-Browser & Accessible UI, Progressive Web Apps (PWA), API Integration
- **Back-End:** Node.js, Express.js, RESTful APIs, PostgreSQL, SQLite, Supabase, Redis (caching & rate limiting), JWT & RBAC authentication, Raw SQL ACID transactions, Stripe payments integration, Python
- **Tools & Practices:** Git/GitHub, Agile remote collaboration, State management (Zustand), Real-time dashboards, Bilingual UI development, Performance optimization, Vercel deployment, AI-assisted development, Vitest
- **Languages:** Arabic (native), English (fluent)

WORK EXPERIENCE

Front-End Developer (Remote) | [PointCraft](#)

2025 – Present

- Engineered a responsive invoice-management web application with React, TypeScript, and MUI, streamlining transaction tracking and record reconciliation for daily operations.
- Built high-reliability self-checkout and POS web interfaces, structuring reactive state management to keep dynamic carts and concurrent order flows responsive.
- Shipped accessible, theme-consistent UI across mobile and desktop viewports, improving operator speed and reducing input friction.

Full-Stack Web Developer (Remote) | [Independent Software Engineer](#)

2023 – 2025

- Architected and shipped production web applications end-to-end for clients, spanning logistics and bilingual community products.
- Engineered ClearCarGo, a customs-clearance platform with real-time shipment tracking, automated Stripe payment workflows, and role-based access control (Next.js 14, TypeScript).
- Designed PostgreSQL schemas and applied Redis caching and rate-limiting strategies to keep API hot paths fast and abuse-resistant.

PROJECTS

[Post-It — Full-Stack Social Media Platform](#) | [React 18](#) · [Express](#) · [PostgreSQL](#)

2023 – Present

- Built a full-stack social platform featuring dynamic feeds, threaded comments, and Zustand state management.
- Engineered production-grade security and backend infrastructure, including dual-token JWT authentication, Redis rate limiting, and raw SQL ACID transactions.

[Kun Min Aldhaakirin — Islamic Remembrance PWA](#) | [Next.js 15](#) · [React 19](#) · [Supabase](#)

2024

- Built a Progressive Web App (PWA) for daily Islamic remembrance using Next.js 15, React 19, TypeScript, and Tailwind CSS.
- Integrated Supabase for persistent storage and authentication, service-worker caching, dynamic dark/light themes, and English/Arabic support.

EDUCATION

B.Sc. Computer Science (in progress) | [University of the People — Online](#)

2026 – Present

Associate's degree | [Technical Institute for Hotels and Tourism — Alexandria, Egypt](#)

2013 – 2015

CERTIFICATIONS

CS50x: Introduction to Computer Science | [Harvard X \(edX\)](#) [certificate](#)

2024

Advanced Full-Stack Web Development | [Udacity](#) [certificate](#)

2022

Responsive Web Design | [freeCodeCamp](#) [certificate](#)

2022

Front End Web Development Professional | [Udacity](#) [certificate](#)
