PROJECTS

Kun Min Aldhaakirin (12/2024 - Present)

- Developed 'Kun Min Aldhaakirin,' a PWA for Islamic daily remembrance using Next.js 15, React 19, and TypeScript. Includes responsive Tailwind CSS UI, Supabase integration, offline capabilities, and dark/light themes.

ClearCarGo (10/2024 - Present)

- Built a full-stack customs clearance platform with Next.js 14 & TypeScript, featuring secure-auth, real-time tracking dashboard, Stripe payments, document management, role-based access, optimized UI, and server actions for performance.

Tasks (02/2024 - 03/2024)

- Built a full-stack task management system using Next.js 13+, TypeScript, and PostgreSQL. Includes secure-auth, role-based access, RESTful API, responsive TailwindCSS UI, real-time-search, image upload, form validation, admin dashboard with analytics, and pagination.
